

## CLAIMS

1. A multipart business form, comprising;  
a substrate having first and second portions, top and bottom edges, first and second side edges and first and second faces;  
said first portion of said substrate having at least one separable identification piece suitable for recording personal or event information; and  
said second portion including at least one postcard.
2. A multipart business form as recited in claim 1, wherein said identification piece is selected from a group including wristbands, cards, badges, tags and combinations thereof.
3. A multipart business form as recited in claim 1, wherein said first portion includes a pressure sensitive laminate.
4. A multipart business form as recited in claim 3, wherein said identification piece is created from a die cut in said pressure sensitive laminate.
5. A multipart business form as recited in claim 1, wherein said first and second portions are separated by a line of weakness.
6. A multipart business form as recited in claim 1, wherein said postcard is separable from said second portion by lines of weakness.
7. A multipart business form as recited in claim 1, wherein said second portion includes a receipt portion.
8. A multipart business form as recited in claim 1, wherein said first portion includes one or more removable pressure sensitive labels.

9. A multipart business form as recited in claim 1, wherein said postcard is used as a response card, request for information card, remembrance article or combinations thereof.

10. A multipart business form as recited in claim 1, wherein said identification piece is used for identification of subjects selected from a group including human, animal, horticultural, agricultural, antiquities, art, household and consumer goods, business supplies and equipment and combinations thereof.

11. An event participation form, comprising;  
a first part having one or more detachable personal identification pieces for event participants, with each piece provided with information relating to an event;  
a second part including a separable postcard for providing feedback to an event sponsor; and  
each of said first and second parts are entirely contained within a substrate suitable for processing through a printer.

12. An event participation form as recited in claim 11, wherein said event is selected from a trade show, amusement park, academic or athletic outing, musical or theatrical performance, resort and vacation packages and combinations thereof.

13. An event participation form as recited in claim 11, wherein said first part is constructed of a pressure sensitive laminate.

14. An event participation form as recited in claim 11, wherein said identification piece is selected from a group including wristbands, cards, badges, tags and combinations thereof.

15. An identification and information request form assembly, comprising;

an article to be identified and for which additional information is required; a substrate having at least first and second part, said substrate suitable for processing through a printer;

    said first part of said substrate is provided with at least one removable identification piece, with said identification piece provided with information related to said article; and

    said second part of said substrate includes at least one removable postcard for requesting information about said article.

16. An identification and information request form assembly as recited in claim 15, wherein said article is selected from a group including animal, agricultural, horticultural, antiquities, art, household and consumer goods, business supplies and equipment and combinations thereof.

17. A method of providing identification and a response card, comprising the steps of;

    providing a multiple part form, said form having first and second sections with said first section having at least one removable identification piece and said second section having at least one separable postcard;

    collecting information about an article, individual or event;

    printing information about said article, individual or event on at least said identification piece;

    providing the form to a requestor;

    removing said identification piece; and

    dispatching the postcard after removal of the postcard from the form.

18. A method as recited in claim 17, including a further step of printing information on the postcard after the step of printing information about said article, individual or event.

19. A method as recited in claim 17, including a further step of inserting information manually after the step of removing the identification piece.

20. A method as recited in claim 17, including a further step of recording responses, comments received from the postcard after the step of dispatching the postcard.
